

# CURRENT LIST of MEDICAL LITERATURE

Vol. 12

January 17/24, 1947

No. 3/4

## SUBJECT GROUPS

- |                                      |                                       |
|--------------------------------------|---------------------------------------|
| * 1. Anatomy; Histology              | 26. Infectious Diseases; Epidemiology |
| 2. Anthropology; Ethnology           | * 27. Medicine                        |
| 3. Archeology; Paleontology          | 28. Metabolism                        |
| 4. Aviation Medicine                 | * 29. Military and Naval Medicine     |
| 5. Bacteriology; Parasitology        | * 30. Miscellaneous                   |
| * 6. Biology; Embryology             | 31. Neurology; Psychiatry             |
| 7. Bone; Joint; Extremities; Muscle  | 32. Nursing                           |
| * 8. Cancerology                     | * 33. Ophthalmology                   |
| 9. Cardiovascular System             | * 34. Otorhinolaryngology; Phoniatry  |
| * 10. Chemistry; Physics             | 35. Pathology                         |
| * 11. Dentistry; Stomatology         | * 36. Pediatrics; Child Welfare       |
| 12. Dermatology                      | 37. Pharmacology; Pharmacy            |
| 13. Diagnosis; Clinical Methods      | 38. Physiology                        |
| * 14. Dietetics; Foods; Nutrition    | 39. Psychology; Mental Hygiene        |
| 15. Digestive System                 | * 40. Public Health; Sanitation       |
| 16. Endocrinology                    | 41. Radiology; Phototherapy           |
| 17. Forensic Medicine; Toxicology    | 42. Respiratory System                |
| * 18. Genetics; Eugenics             | * 43. Surgery; Traumatology           |
| * 19. Gynecology; Obstetrics         | 44. Therapeutics                      |
| 20. Hematology                       | 45. Tropical Medicine                 |
| 21. History; Biography; Bibliography | * 46. Tuberculosis                    |
| 22. Homeopathy; Osteopathy, etc.     | 47. Urology                           |
| 23. Hospitals                        | * 48. Venereal Diseases; Sexology     |
| 24. Immunology; Serology             | * 49. Veterinary Medicine             |
| 25. Industrial Hygiene; Sociology    | 50. Zoology                           |

ARMY MEDICAL LIBRARY  
7th Street & Independence Ave., S.W.  
Washington 25, D.C.

The CURRENT LIST OF MEDICAL LITERATURE is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C., \$3.00 per year (\$3.75 foreign) 10 cents per single copy. All communications regarding subscriptions should be addressed to the Superintendent of Documents at the above address.

Published weekly by the ARMY MEDICAL LIBRARY, 7th Street & Independence Ave., S. W., Washington 25, D. C., as an intraservice publication of the War Department. Lists all articles of medical interest contained in current journals received. Subject indexes provided monthly. Exchange invited.

## 1. Anatomy; Histology

*Am. J. Anat.*, 1946, 79: (Nov.)

BOYDEN, E. A., & HARTMANN, J. F. An analysis of variations in the bronchopulmonary segments of the left upper lobes of fifty lungs. 321-60, incl. 8 pl.

KLAPPER, C. E. The development of the pharynx of the guinea pig with special emphasis on the fate of the ultimobranchial body. 361-97, incl. 5 pl.

CONGDON, E. D., EDSON, J., & YANTELLI, S. Gross structure of the subcutaneous layer of the anterior and lateral trunk in the male. 399-429, incl. 6 pl.

LUCAS, A. M. Hematology of blood spots in eggs of White Leghorn chickens. 431-71, incl. 2 pl.

## 6. Biology; Embryology

*Biol. Bull.*, 1946, 91: No. 1. (Aug.)

PUBLICATIONS from the Marine Biological Laboratory, 1941-1945. 13-33.

SCOTT, F. M. (Sister) The developmental history of *Amaroecium constellatum*; organogenesis of the larval action system. 66-80.

GIESE, A. C. Comparative sensitivity of sperm and eggs to ultraviolet radiations. 81-7.

CARRIKER, M. R. Observations on the functioning of the alimentary system of the snail *Lymanaea stagnalis appressa* Say. 88-111, incl. 2 pl.

CHEN, T. T. Temporary pair formation in *Paramecium bursaria*. 112-17.

*Biol. Bull.*, 1946, 91: No. 2. (Oct.)

WEISZ, P. B. The space-time pattern of segment formation in *Artemia salina*. 119-40.

JAKUS, M. A. & HALL, C. E. Electron microscope observations of the trichocysts and cilia of *Paramecium*. 141-4.

PEASE, D. C. Hydrostatic pressure effects upon the spindle figure and chromosome movement; experiments on the meiotic divisions of *Tradescantia* pollen mother cells. 145-69.

BROWN, F. A., jr., & SAIGH, L. M. The comparative distribution of two chromatophoretic hormones (CDH and CBLH) in crustacean nervous systems. 170-80.

MORRISON, P. R. Physiological observations on water loss and oxygen consumption in *Peripatus*. 181-8.

KOZLOFF, E. N. Studies on ciliates of the family Ancistrocomidae Chatton and Lwoff (order Holotricha suborder Thigmotricha); *Ancistrocoma pelseneeri* Chatton and Lwoff, *Ancistrocoma dissimilis* sp. nov. and *Hypocomagalma pholadidis* sp. nov. 189-99, incl. pl.

KOZLOFF, E. N. Studies on ciliates of the family Ancistrocomidae Chatton and Lwoff (order Holotricha, suborder Thigmotricha); *Heterocinetia jarocki* Jarocki, *Heterocinetia gonobasidis* sp. nov., *Heterocinetia fluminicola* sp. nov., and *Enerthocoma properans* Jarocki. 200-9, incl. pl.

ROBBIE, W. A. The cyanide sensitivity of the unfertilized sea urchin egg. 210.

TYLER, A. Inhibition of fertilization in sea urchins by means of univalent antibodies vs. antifertilizin. 210.

BLISS, A. F. Intermediate steps in the visual cycle. 210.

SHANES, A. M. The dependence of the resting potential of nerve on potassium, calcium, and hydrogen ions. 211.

BROOKS, M. M. Oxidation-reduction studies as a clue to the mechanism of fertilization of marine eggs. 212.

ANFISEN, C. B., & BALL, E. G. The action of naphthoquinone antimalarials on respiratory systems. 212.

SCHARER, E. Chemical sense and taste in the sea robin, *Prionotus*. 212.

VILLEE, C. A. Studies of the respiration of the imaginal discs of *Drosophila* using the Cartesian diver ultramicrorespirometer. 213.

ARMSTRONG, P. B. The specificity of choline esterase. 213.

SCHARER, B. The endocrine role of the corpora allata in insects. 214.

WHITING, A. R. & GEORGE, H. C. Contrasts between visible and dominant lethal mutation rates in x-rayed *Habrobracon* eggs. 214.

BROWNELL, K. A. A new factor from the adrenal influencing fat deposition in the liver. 214.

HARTMAN, F. A. Hyperactivity of the adrenal cortex. 215.

IAZAROW, A., & LEVEY, S. Studies on the mechanism of alloxan action. 216.

WRINCH, D. Biological specificity and the synthesis of native proteins. 215.

ELLINGER, T. U. H. Chick embryology at the medical schools of ancient Greece. 217.

BERGER, C. A. Naturally occurring polyploidy in the development of *Allium cepa* L. 217.

WHITING, P. W., & SCHMEIDER, R. G. Reproductive economy in closecrossed species with haploid males. 218.

WILBER, C. G. A comparative study of the lipids in some marine annelids. 218.

ABELL, R. G. Vascular reactions to ergonovine maleate as seen directly with the microscope in the living mammal. 219.

GUZMAN BARRON, E. S., MENDES, E. G. & NARAHARA, G. T. The effect of halogenated alkyl amines on the respiration of *Arbacia* eggs and sperm. 220.

BENEDICT, D., & GUZMAN BARRON, E. S. The effect of uranyl nitrate on the respiration of *Arbacia* sparm. 220.

BLISS, A. F. Some properties of purified squid visual pigment. 220.

BRUST, M. Studies on the viscosity and elasticity of striated muscle. 221.

CLARK, E. R., & CLARK, E. L. Arterial anastomoses. 221.

DALCQ, A. M. The effects of the ultra-violet radiations on *Styelx* eggs. 221.

HUNTER, F. R., & PARPART, A. K. The distribution of lipid between the light and heavy halves of the *Arbacia* egg. 222.

GRAY, I. E. A correlation between gill surface and activity in marine fishes. 222.

LeFEVRE, P. G. Evidence for enzymatic participation in the penetration of the human erythrocyte by glycerol. 223.

LeFEVRE, P. G. "Accommodation" and opening excitation in nerve and muscle. 223.

LEIN, J. A photometric study of the kinetics

of fibrin formation. 223.

SPEIDEL, C. C. Correlated histories of individual sense organs and their nerves, as seen in living frog tadpoles. 224.

SCHAEFFER, A. A. Formation of the nuclear membrane and other mitotic events in *Chaos chaos* Linn., and *Chaos neos* (new species). 224.

WILBER, C. G. The effect of prolonged starvation on the lipids in *Phascolosoma gouldii*. 225.

WOODWARD, A. A. Protoplasmic clotting in isolated muscle fibers. 225.

BUCK, J. B. Some aspects of the histology and physiology of luminescence in railroad worms. 226

CHENEY, R. H. Effect of caffeine concentration upon retardation of *Arbacia* development. 226

JONES, A. T. Shape changes in the denuded *Nereis* egg preceding first cleavage. 227.

KUNTZ, E. Hormone control of dehydrogenase activity of crustacean tissues. 227.

POULSON, F. & BOELL, E. J. A comparative study of cholinesterase activity in normal and genetically deficient strains of *Drosophila melanogaster*. 228.

SHANES, A. M. Possible metabolic and physical chemical factors in the production of the injury potential in spider crab nerve. 228.

WILSON, T. H., & JACOBS, M. H. Some effects of tannic acid on osmotic hemolysis. 229.

WILSON, W. L. The effect of roentgen radiation on protoplasmic viscosity changes during mitosis. 229.

ABELL, R. G. The effects of massive doses of ergonovine maleate upon the smaller blood vessels as seen directly with the microscope in the living mammal. 230.

BEVELANDER, G. Secretory cells in the branchial epithelium of fishes. 230.

MATHEWS, A. P. A modified Crompton formula for the latent heat of vaporization. 231.

ORR, P. R. Heat death. 232.

REID, W. M. Penetration glands in tapeworm *Onchospheres*. 232.

SICHEL, F. J. M., & ARMSTRONG, P. B. Intensity-duration relation in stimulation by light. 233.

STRAUS, W. L., jr. The pattern of the intrinsic palmar musculature. 233.

TAFT, C. H. The toxicity of a mixture of high molecular alkyl-dimethyl-benzyl ammonium chlorides to *Fundulus*. 234.

WICHTERMAN, R. Further evidence of polyploidy in the conjugation of green and colorless *Paramecium bursaria*. 234.

WILBER, C. G. The lipids in *Pelomyxa carolinensis*. 235.

WILBER, C. G. The presence of lipase in *Pelomyxa carolinensis*. 235.

BROWN, E., & LANDIS, E. M. The effect of cold on capillary permeability and fluid movement in the frog. 236.

HARVEY, E. N., COOPER, K. W. [et al] Bubble formation within single cells. 236.

HEILBRUNN, L. V., & WIERCINSKI, F. J. The action of various cations of muscle protoplasm. 237.

JACOBS, M. H., & STEWART, D. R. Further observations on an oligodynamic action of copper and mercury on erythrocytes. 237.

PONDER, E. The prolytic loss of K from red cells. 237.

GUZMAN BARRON, E. S., & KALNITSKY, G. Effect of fluoroacetate on the metabolism of baker's yeast. 238.

BOELL, E. J. The effect of sodium azide on *Paramecium calkinsii*. 238.

LIPMANN, F. Enzymatic acetylation and the

coenzyme of acetylation. 239.

WALD, G. The metamorphosis of visual system in Amphibia. 239.

ANDERSON, R. S. X-ray effects in mixtures of compounds. 240.

BARNES, T. C. Electrical studies of acetylcholine and choline esterase. 241.

BEUTNER, R., & BARNES, T. C. Two schools of thought in electrophysiological theory. 241.

SWANSON, C. P., & HOLLAENDER, A. The frequency of X-ray-induced chromated breaks in *Tradescantia* as modified by near infrared radiation. 242.

#### J. Exp. Zool., 1946, 102: No. 2. (Jul.)

HOPKINS, H. S. The influence of season, concentration of sea water and environmental temperature upon the oxygen consumption of tissues in *Venus mercenaria*. 143-58.

McGOVERN, B. H., HARNLY, M. H., & GABLE, J. A new approach to the pattern problem in *Drosophila* wings. 159-77.

WHITE, M. J. D. The spermatogenesis of hybrids between *Triturus cristatus* and *T. marmoratus* (Urodela). 179-207, incl. 2 pl.

MOORE, C. R., & FAILOR, E. A. The role of sex hormones in the origin and development of uterine glands in the opossum. 209-35, incl. 3 pl.

#### J. Exp. Zool., 1946, 102: No. 3. (Aug.)

HINTON, T. The physical forces involved in somatic pairing in the Diptera. 237-51, incl. 3 pl.

HARVEY, E. B. Structure and development of the clear quarter of the *Arbacia punctulata* egg. 253-75, incl. 4 pl.

PHELPS, A. Growth of Protozoa in pure culture; effect of temperature upon the division rate. 277-92.

KAUFMANN, B. P. Organization of the chromosome; break distribution and chromosome recombination in *Drosophila melanogaster*. 293-320.

DETWILER, S. R. A quantitative study of locomotion in larval *Amblystoma* following either midbrain or forebrain excision. 321-32.

SLIFER, E. H. The effects of xylol and other solvents on diapause in the grasshopper egg; together with a possible explanation for the action of these agents. 333-58.

TURNER, C. L. Retention of response to ethynyl testosterone in females of *Gambusia affinis*. 357-69.

#### J. Exp. Zool., 1946, 103: No. 1. (Oct.)

GILLETTE, R., & BODENSTEIN, D. Specific developmental inhibitions produced in amphibian embryos by a nitrogen mustard compound. 1-32.

PETERS, J. J. A cytological study of mitosis in the cornea of *Triturus viridescens* during recovery after colchicine treatment. 33-59, incl. 2 pl.

FRINGS, H., & O'NEAL, B. R. The loci and thresholds of contact chemoreceptors in females of the horsefly, *Tabanus sulcifrons* Macq. 61-79.

HOLTFRETER, J. Experiments on the formed inclusions of the amphibian egg; observations on

microsomes, vacuoles, and on the process of yolk resorption. 81-112.

HAMBURGER, V. Isolation of the brachial segments of the spinal cord of the chick embryo by means of tantalum foil blocks. 113-42.

GREGG, J. R., & BALLENTINE, R. Nitrogen metabolism of *Rana pipiens* during embryonic development. 143-68.

DALTON, H. C. The role of nucleus and cytoplasm in development of pigment patterns in *Triturus*. 169-99, incl. 3 pl.

## 8. Cancerology

*J. Nat. Cancer Inst.*, 1946, 7: No. 1. (Aug.)

GREENSTEIN, J. P., & LEUTHARDT, F. M. Neutral beta-glycerophosphatase activity in normal and neoplastic tissues. 1-3.

LARSEN, C. D. Survey of hypnotics in general with regard to pulmonary tumor induction in mice. 5-8.

GREENSTEIN, J. P., CARTER, C. E. [et al.] Enzymatic desamination and dephosphorylation of ribonucleic and deoxyribonucleic acids. 9-27.

CARTER, C. E., & GREENSTEIN, J. P. Studies on the enzymatic degradation of nucleic acids. 29-45.

## 10. Chemistry; Physics

*Rev. As. bioquim. argent.*, 1946, 13: No. 48. (Mar.-Apr.)

CAMPONOVIO, P. B. Método para la determinación fotométrica de salicilatos en sangre. 67-72.

GATTI, C. F. J. Substitutos de la sangre. 73-80.

DESIMONE, L. Recolección de muestras para análisis clínicos. 81; passim.

PALMA, E. de. Dos nuevas reacciones coloidales para el líquido cefalorraquídeo. 109-12.

## 11. Dentistry; Stomatology

*Dent. Items*, 1946, 68: No. 12. (Dec.)

HYMANS, I. B. Pulpotomy; an experiment. 1147-52.

DAVIS, W. C. Hot water and steam treatment of putrescent pulp canals. 1152-4.

BOURGOYNE, J. R. Surgery of the mouth and jaws; impacted and embedded teeth. 1155; passim.

NODINE, A. M. Impacted and aberrant teeth: their history, causes and treatment. 1164; passim.

KAUFMAN, I. Perioestitis, osteitis and osteomyelitis. 1172-5.

WALLACE, J. S. The newer knowledge of hygiene in diet. 1175; passim.

SCHWARTZ, J. R. The plastics; with special emphasis on the use of acrylics in the construction of jacket crowns, bridgework and partial dentures; moulding and processing. 1183; passim.

DUREBECK, W. E. Diagnostic oral roentgenology. 1189; passim.

FAGELMAN, J. Acrylic crown technic. 1197.

BELDING, P. H. The oral streptococci. 1210-6

## 14. Dietetics; Foods; Nutrition

*Food Res.*, 1946, 11: No. 5 (Sept.-Oct.)

WYND, F. L., & NOGGLE, G. R. Influence of nutritional factors on correlation between vitamin C concentration and growth of cereals. 373-9.

SOLOWEY, M., SPAULDING, E. H., & GORESLINE, H. E. An investigation of a source and mode of entry of *Salmonella* organisms in spray-dried whole-egg powder. 380-90.

KRAMER, A. Nutritive value of canned foods; proximate and mineral composition. 391-8.

GROSS, C. E., VINTON, C., & MARTIN, S., jr. Bacteriological studies relating to thermal processing of canned meats; viability of spores of a putrefactive anaerobic bacterium in canned meat after prolonged incubation. 399-404.

GROSS, C. E., VINTON, C., & STUMBO, C. R. Bacteriological studies relating to thermal processing of canned meats; characteristics of putrefactive anaerobe used in thermal resistance studies. 405-10.

GROSS, C. E., VINTON, C., & STUMBO, C. R. Bacteriological studies relating to thermal processing of canned meats; thermal death-time curve for spores of test putrefactive anaerobe in meat. 411-8.

WHITMORE, R. A., & POLLARD, A. E. [et al.] Vitamin content of dehydrated meats. 419-24.

VAIL, G. E., & WESTERMAN, B. D. B-complex vitamins in meat; thiamin and riboflavin content of raw and cooked pork. 425-31.

OBBERG, A. G., YOUNG, A. W. [et al.] Leaves and stems of turnip greens as a source of some nutrients. 432-46.

FAULKNER, E. C., & SIMPSON, J. I. A comparative study of soy flours for use in baking; composition and properties of soy flours. 447-53.

FAULKNER, E. C., & SIMPSON, J. I. A comparative study of soy flours for use in baking; effect on quality of muffins and cakes. 454-9.

*Food Res.*, 1946, 11: No. 4 (July-Aug.)

HAYNES, W. C., & HUCKER, G. J. A review of *Micrococcus enterotoxin* food poisoning. 281-97.

EHEART, M. S., & SHOLES, M. L. Effects of method of blanching and temperature of storage on nutritive value of dehydrated cabbage. 296-304.

RICE, E. E., FRIED, J. F., & HESS, W. R. Storage and microbial action upon vitamins of the B-complex in pork. 305-12.

SCHNEIDER, M. D. Investigation of *Salmonella* content of powdered whole egg with not more than two per cent moisture content; general survey on occurrence of species of *Salmonella* in high-quality egg powder. 313-8.

WERTZ, A. W., & WEIR, C. E. Effect of institutional cooking methods on vitamin content of foods; ascorbic acid content of potatoes. 319-26.

YESAIR, J., BOHRER, C. W., & CAMERON, E. J. Effect of certain environmental conditions on heat resistance of micrococci. 327-31.

EHEART, M. S., & SHOLES, M. L. Effects of method of sulfuring, dehydration, and temperature of storage on ascorbic acid and carotene content of dehydrated peaches. 332-40.

CATHCART, W. H., & PARKER, J. J. Defrost-

ing frozen foods by high-frequency heat. 341-4.  
HOLMES, A. D., & SPELMAN, A. F. Composition of squashes after winter storage. 345-50.

WYND, F. L., & NOGGLE, G. R. Relationship between phosphorus fractions in soil and protein accumulation in leaves of cereals. 351-7.

WYND, F. L., & NOGGLE, G. R. Relationship between phosphorus fractions in soil and carotene in leaves of cereals. 358-64.

WYND, F. L., & NOGGLE, G. R. Relationship between phosphorus fractions in soil and vitamin C production in leaves of cereals. 365-71.

Nutrit. Rev., 1946, 4: No. 9. (Sept.)

PRESENT knowledge of ascorbic acid (vitamin C) in nutrition. 259-62.

GLOSSITIS, oral fissures, and dysphagia as signs of iron deficiency. 263.

PROTEIN requirement of adults. 264-6.

SYNTHESIS and structure of compounds closely related to vitamin A. 267.

DIET and riboflavin metabolism in the rat. 268-70.

PTERINS and macrocytic anemia factors. 270-3.

STREPOGENIN and the nutritional value of protein. 273-5.

FORMATION of glycine in the body. 275.

PROTEIN and antibody production. 279-82.

## 18. Genetics; Eugenics

Genetics, 1946, 31: No. 6 (Nov.)

DUBININ, N. P., & TINIYAKOV, G. G. Inversion gradients and natural selection in ecological races of *Drosophila funebris*. 537-45.

PAVAN, C. Chromosomal variation in *Drosophila nebulosa*. 546-57, pl.

TAN, C. C. Genetics of sexual isolation between *Drosophila pseudoobscura* and *Drosophila persimilis*. 558-73.

MEAD, S. W., GREGORY, P. W., & REGAN, W. M. Deleterious recessive genes in dairy bulls selected at random. 574-88.

MAMPELL, K. Genic and nongenic transmission of mutator activity. 589-97.

STERN, C., MacKNIGHT, R. H., & KODANI, M. The phenotypes of homozygotes and hemizygotes of position alleles and of heterozygotes between alleles in normal and translocated positions. 598-619.

HERSHEY, A. D. Mutation of bacteriophage with respect to type of plaque. 620-40.

## 19. Gynecology; Obstetrics

Midwives Chron., Lond., 1946, 59: No. 704 (Aug.)

GRUNDY, F. The viewpoint of social medicine. 153.

PYE, E. M. Domiciliary midwifery in Calcutta. 155.

Midwives Chron., Lond., 1946, 59: No. 705 (Sept.)

FOX, J. G. Diabetes mellitus and the management of the pregnant diabetic. 177-9.

CORNER, B. D., & EVANS, E. Nursery technique at Bristol Maternity Hospital. 184; *passim*.

Midwives Chron., Lond., 1946, 59: No. 706 (Oct.)

MORRIS, P. Education and health. 193.

E., B. R. National Insurance Act, 1946. 197.

Midwives Chron., Lond., 1946, 59: No. 707 (Nov.)

EDWARDS, F. H. Caesarean section; ancient and modern. 217-9.

## 27. Medicine

Bol. Lab. Clín. Luis Razetti, 1946, No. 19-20. (Jun.)

IRIARTE, D. R. La familia Simuliidae en Venezuela. 333; *passim*.

GONZÁLEZ RINCONES, R. Juicio sobre el trabajo de incorporación del Dr. David R. Iriarte a la Academia nacional de medicina, La familia Simuliidae en Venezuela. 349-53.

IRIARTE, D. R. Contribución al estudio de la leishmaniosis en Venezuela. 355-93.

BRICENO-IRAGORRY, L. Nota acerca de *Culicoides* (Diptera, Ceratopogonidae); descripción de una especie nueva para el país. 397-9.

Bristol Med. Chir. J., 1946, 63: No. 226. (Summer)

BECK, D. J. K. The diagnosis of tumours of the central nervous system. 65-72.

CAIRNS, H. Diagnosis of tumours of the central nervous system. 73.

NIERENSTEIN, M. Dioscorides Phakas on the detection of iron in blood, urine and sputum. 75-81.

MOORE, R. H. Inhalation of food during injection of pentothal. 82.

Bull. Soc. méd. Paris, 1946, No. 2 (Feb.)
